¹ Fuel consumption is determined in accordance with the ECE driving cycle (93/116/EC) made up of approximately one third urban traffic and two thirds extra-urban driving (based on the distance covered). CO2 emissions are measured in addition to fuel consumption. All data is presented based on a vehicle of this model with standard equipment as tested for the German market. Where those vehicles are available in a right hand drive variant, they can be specially ordered from the factory by New Zealand customers. Figures given for unladen weight in kg is based on vehicle with standard equipment and includes a 90 per cent tank filling, 68 kg allowance for the driver and 7 kg allowance for luggage. Optional equipment may increase this figure. The performance and fuel consumption rates listed are based on the use of RON 98 fuel. Actual figures for fuel consumption and emissions will depend on many factors including traffic conditions, driving habits, prevailing conditions and your vehicle's actual equipment, condition and use. Test figures are unlikely to be achieved in real world driving conditions and should only be used for comparing one vehicle with another. Further information about the official fuel consumption and the official specific CO2 emissions for new passenger vehicles can be found in the 'New Passenger Vehicle Fuel Consumption and CO2 Emission Guidelines', at <http://www.dat.de/en/offers/publications/guideline-for-fuel-consumption.html>.

MINI CONNECTED.

MINI Connected brings next-level connectivity to your MINI with a wide range of intelligent services and apps.

REAL-TIME TRAFFIC INFORMATION (RTTI).

Get accurate, real-time alerts for any accidents, traffic jams and roadworks ahead. MINI Connected keeps your navigation system supplied with the latest traffic data, so you're always on the best route to where you need to be.

APPLE CAR PLAY®.

Enables wireless and comfortable usage of your iPhone® in your vehicle via Apple CarPlay®. Selected smartphone content can be displayed and operated via the user interface of the vehicle. You can conduct phone calls, listen to music, have incoming text messages read out, dictate and send your own text messages, and much more.

REMOTE SERVICES AND VEHICLE STATUS.

Use your smartphone to unlock or lock your MINI, flash the high beams. The status display with Union Jack design shows you where your MINI is, calculates the available range and, when you enter a destination, works out how long it will take you to drive there.

INTELLIGENT EMERGENCY CALL.

If you're unable to call for help in an accident, it's good to know MINI can. With the intelligent Emergency Call system, your MINI automatically sends a distress call to the BMW Group Call Centre, so help can swiftly arrive. It is comforting to know that with MINI you are never alone.
